

Windows: More Than Just a Calculator

You can start up the Calculator by clicking inside the Windows' TYPE HERE TO SEARCH box at the bottom of your screen – and typing in the first few characters of the word *calculator*.

The calculator has been part of the Windows repertoire for years, but it is actually over a dozen calculators rolled into one. Just a few examples:

Calculator

- Standard
- Scientific
- Programmer
- Date Calculation

Converter

- Currency
- Volume
- Length
- Weight and Mass
- Temperature
- Energy
- Area
- Speed
- Time
- Power
- Data
- Pressure
- Angle
- About

Date Calculation

Difference between dates

From: June 24, 2019

To: June 24, 2019

Difference: Same dates

Currency

\$ 0

Canada - Dollar

€ 0

Europe - Euro

1 CAD = 0.6656 EUR
